

OCCUPATIONAL THERAPISTS IN PRIVATE PRACTICE WORKING WITH CHILDREN

Occupational therapists provide assessment and therapy for children who are experiencing difficulties in their development and learning. The areas occupational therapists may assess include play skills, self-care skills, feeding skills, sensory processing, gross motor skills, fine motor skills, visual-motor coordination, visual perception, handwriting, social skills and self-esteem.

medicare This indicates that the Occupational Therapist is registered with Medicare to provide rebated sessions via the Enhanced Primary Care Program
