

# Copying from the Board

**TIP #2**

Reduce visual distractions on and around the board including decorations or unrelated information. Draw a border around the information to be copied or highlight key information if using a smart board.

Have the child sit directly facing the board, preferably in the front row. Make sure the child's vision has been tested.

**TIP #1**

Allow the child more time for copying from the board or provide a photocopy for the child to glue into their book instead.

**TIP #3**

**TIP #4**

Consider recording the lesson using a smart pen, tablet, or other device so it can be reviewed later.
