

# Cutting Along a Line

## TIP #1

Make sure your child is sitting with feet on the floor (or footrest) and bottom at the back of the chair. Sit to the side of your child so you can help.

## TIP #2

Show your child how to place their fingers in the correct scissor loops. Tell them to keep their thumbs on top of the scissors and the paper, and point the scissors away from their body.

## TIP #3

Thin card is easier to cut than paper. A thick line is easier to cut along than a thin line.

## TIP #4

Start out by cutting straight lines, then try curved lines.
